

Governor Introduction – Beryl Hall

My name is Beryl Hall and I live in the community of Norton Canes.

I have been a Governor for Norton Canes High School for 10 years. I come into school on a regular basis and work closely with the Senco/inclusion officer. I am the Designated Child Protection and Looked After Child governor, part of this role is making sure the Safeguarding, Prevent and British Values policies are in place and staff receive appropriate training.

I am also the link governor for Special Education Needs. I take a hands on approach to this and go into lesson to support the SEN pupils particularly with the Accelerated Reader project. Once a half term I visit the Autism Outreach Base at the school to see how the pupils in the base are progressing.

I have many links with the community and bring groups into the school. Over the last couple of years some of the older members of the community have visited school. Pupils have served them lunch; entertained them with music and dance and even given them pampering sessions.
