

# Using the Xbox One or PlayStation4 to access the internet

## Xbox One

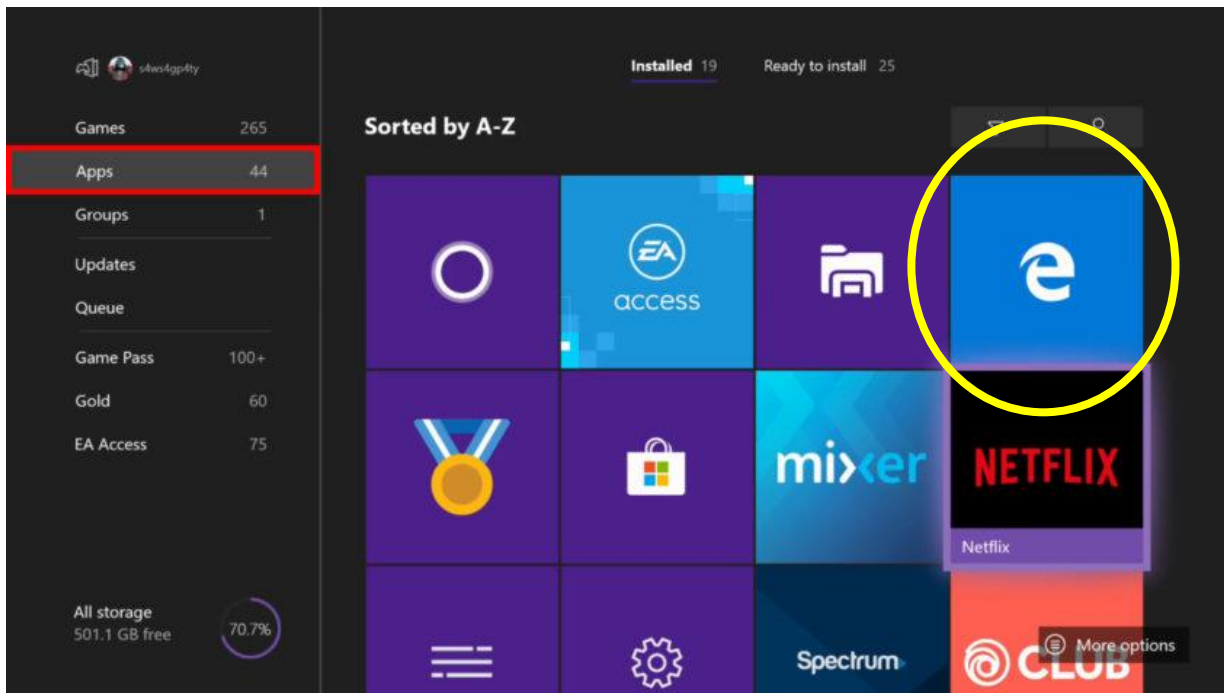

1. Load the Xbox and go to the dashboard.

2. Scroll to the top of the dashboard and find the 'Games and Apps' icon. Select this icon by highlighting it and clicking the 'A' button.

3. Scroll down to the 'Apps' tab and find the Microsoft Edge icon. Select this icon to launch the browser.

4. You should now have a working internet browser. Below you can see some of the controls you may need to use the browser effectively. To move and control your mouse, use the left analogue stick. To select where your mouse is hovering, click the 'A' button.

5.

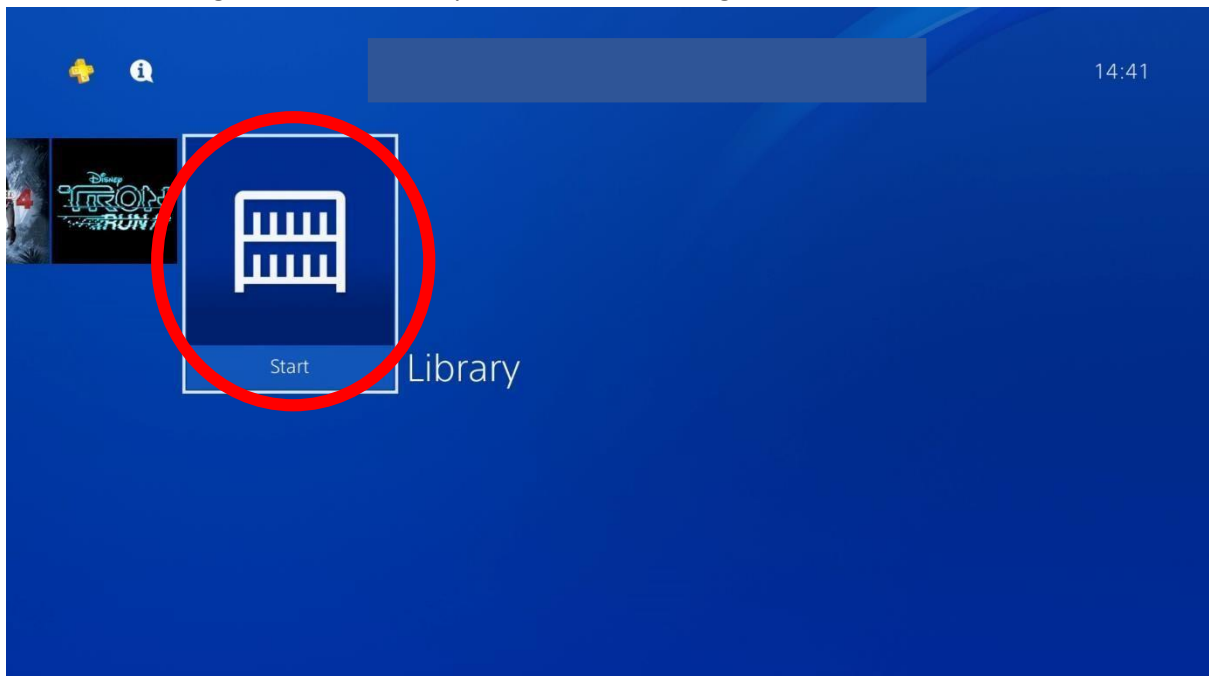

7. You can then use this browser access Office 365 or your area at school

## PlayStation 4

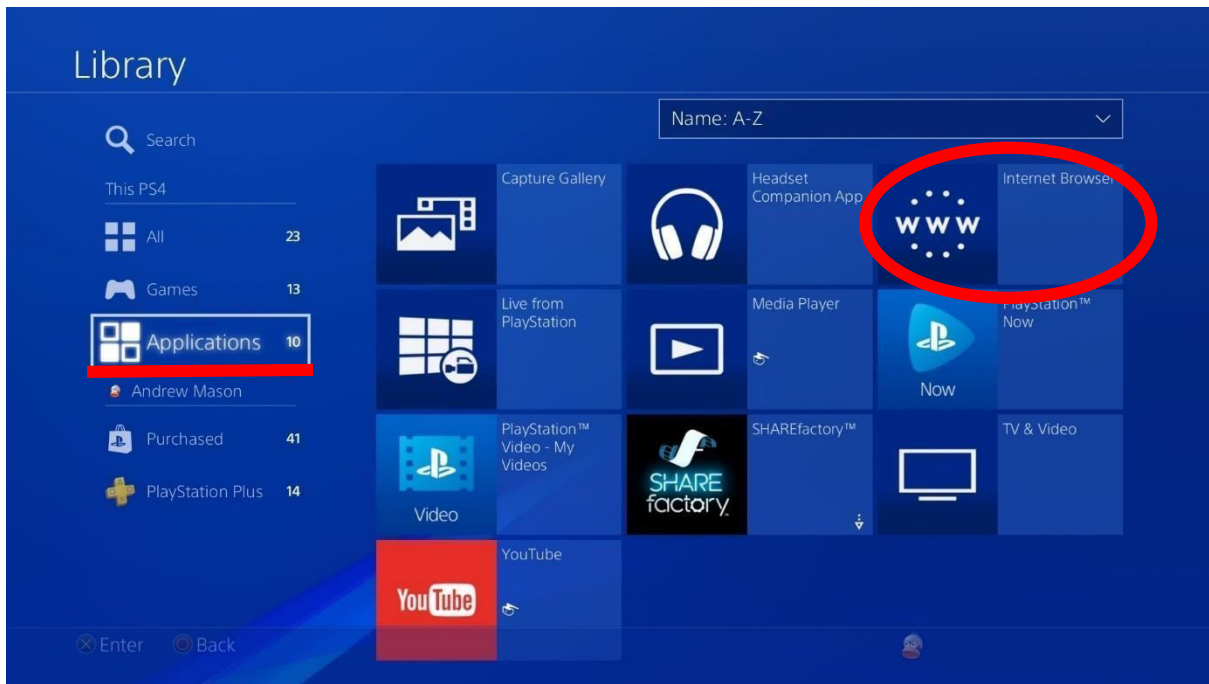

1. Load the PS4 and go to the dashboard.

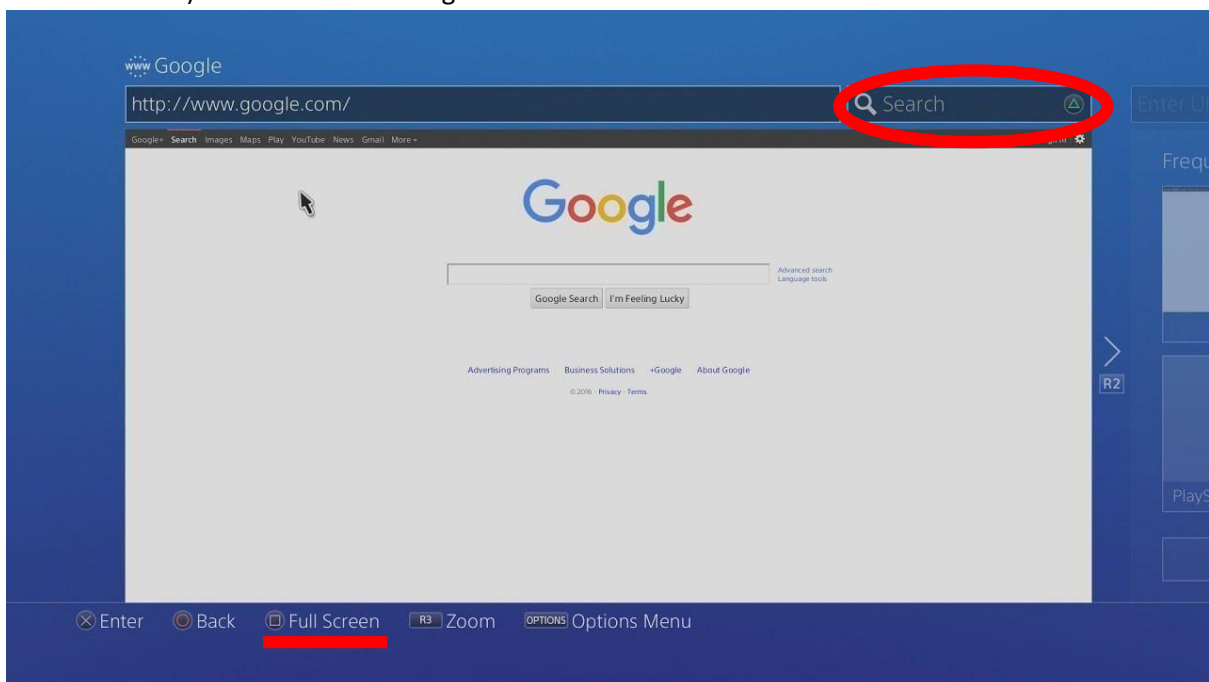

2. Scroll to the right to find the library tab and select it using 'X'.

3. Scroll down to the 'Applications' tab and find the 'WWW' icon. Select this icon to launch the browser.

4. You should now have a working internet browser. (In the browser you can click '□' to full screen the window). Now click '△' to begin a search.

5. When you need to type, the following keyboard will appear. Use this to enter the desired page

Thanks to Mr Farmer from Kingsmead for this idea.

8. You should be able to use the left analogue stick to control the mouse within the browser. This will access the web as normal. You can then use this browser access Office 365 or your area at school
