

Staffordshire County Council General Risk Assessment Record Form

1. **Section/Service/Team-Education Norton Canes High School** 2. **Assessor(s)...** Acting Headteacher & Business Manager

2. **Description of Task/Activity/Area/Premises etc. Schools full opening September 2021 - Minimising the risk of transmission of COVID-19 reviewed Risk Assessment incorporating Omicron Variant 04.01.2022**

LFT testing to take place in January 2022 on site for students who have given consent.

7-day kits to be issued week 13th December, all students requested to test twice weekly.

What are the hazards?	Who might be harmed and how?	What are you already doing? List the control measures already in place	What is the risk rating – H, M, L? See section 5	What further action, if any, is necessary, if so what action is to be taken by whom and by when?	Action Completed State the date completed and sign.	What is the risk rating now – H, M, L? See Section 5
<p>Exposure to COVID-19 through contact with an infected person.</p> <p>The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking, and breathing.</p> <p>These particles can be breathed in by another person. The particles can also land on surfaces and be passed from person to person via touch. Particles can survive on surfaces for a period after transfer</p>	<p>Everyone on site.</p> <p>General transmission may occur: Through close contact between colleagues, pupils and visitors and touching contaminated surfaces.</p>	<ul style="list-style-type: none"> Anyone with COVID-19 symptoms, has a positive test result or is required to isolate or quarantine does not attend school. Anyone developing COVID-19 symptoms during the school day is sent home and procedures followed to manage transmission risks. Symptomatic staff and pupils advised to access PCR testing. Home test kits offered to individuals who would not be able to access testing by the normal testing routes. Twice weekly home testing for staff and (secondary) pupils until the end of September. Active engagement with NHS Test and Trace service. 		<ul style="list-style-type: none"> Contingency/Outbreak Management Plan developed outlining extra actions to be taken if there is an outbreak in school or local area, if advised to take extra measures or to respond to a Variant of Concern. Follow advice given by local outbreak/health protection teams. Encourage staff and parents to engage with Test and Trace process and to inform them immediately of the results of a test. Rapid testing (LFDs) encouraged and promoted. 		

What are the hazards?	Who might be harmed and how?	What are you already doing? List the control measures already in place	What is the risk rating – H, M, L? <p>Paediatric advice - Resuscitation Council UK Statement: It is likely that a child/infant having an out-of-hospital cardiac arrest will be known to you. We accept that doing rescue breaths will increase the risk of transmitting the COVID-19 virus, either to the rescuer or the child/infant. However, this risk is small compared to the risk of taking no action as this will result in certain cardiac arrest and the death of the child.</p>						
	Staff Transmission may occur when supervising pupils taken ill with symptoms of COVID-19 and need direct personal care until they return home.	<ul style="list-style-type: none"> • Increase ventilation in the room if possible. • PPE provided for supervising adult: Fluid resistant surgical mask if a 2-metre distance cannot be maintained. Where contact with the pupil is needed: Fluid resistant surgical mask, disposable gloves and disposable apron. 		<ul style="list-style-type: none"> • Maintain stocks of PPE. • Supervising adult instructed on the safe “donning and doffing” of PPE. • Consider using first aiders to supervise to reduce numbers of staff who need access to PPE. 		
	Staff and pupil. Transmission may occur when staff administer medicines or supervise pupils who self-administer.			<ul style="list-style-type: none"> • Review medication plans to assess PPE requirements (if any) for staff administering medication. 		

4. Tick (✓) if any of the identified hazards relate to any of the following specific themes:

Hazardous Substance	Manual Handling	Display Screen Equip	Fire	Work Equip / Machinery	Stress	Individual Person such as Young Person New/ Expectant Mother or Service User
✓			✓		✓	✓

If any are ticked a specific risk assessment form must be completed separately. For example a COSHH form must be completed if a hazardous substance is used.

5. Risk Rating

The risk rating is used to prioritise the action required. Deal with those hazards that are high risk first.

Risk Rating	Description	Action Priority
High	Where harm is certain or near certain to occur and/or major injury or ill-health could result	Urgent action
Medium	Where harm is possible to occur and/or serious injury could result e.g. off work for over 3 days	Medium priority
Low	Where harm is unlikely or seldom to occur and/or minor injury could result e.g. cuts, bruises, strain	No action or low priority action

6. Assessment

Signature of Assessor(s):

Print Name: J K EVANS

Date Assessed: 04.01.2022

Review Date: ongoing

7. Communication and Review

This risk assessment will be communicated to all employees and relevant persons who may come into contact with the hazards being assessed. The assessment must be reviewed annually or following a significant change, accident or violent incident.
